BS Computer Science
Graduated July 2025
Distinction in Leadership as the CS Department Representative

PHILIPPINE SCIENCE HIGH SCHOOL
Secondary Diploma - STEM
Graduated May 2018
Distinction in Leadership as the founder of CS student organization

SKILLS

AI/LLM
Prompt Engineering, Structured Output (JSON Schema), Gemini, OpenAI, Vapi

FULL-STACK
React, Next.js, Vue 3, Prisma, PostgreSQL, Neon, Supabase

RELIABILITY
Exponential Backoff, Rate Limiting, Token Optimization, CI/CD

LANGUAGES

English - Native
Filipino - Native
Japanese - N5; Actively studying for N3; committed to long-term professional growth in Tokyo

RAFA PARTOSA

FULL-STACK SOFTWARE ENGINEER

PROJECTS

Constellate DEC 2025 - PRESENT
Independent Developer
React, Next.js, TypeScript, Prisma, Gemini

- Independently built and deployed a **production-ready MVP** for a self-reflective journaling app in **two weeks**.
- Optimized **LLM request pipelines** to mitigate overloads, aggressively reducing token complexity for enterprise-scale prompts.
- Engineered complex **response schemas** to transform unstructured language into valid, multi-dimensional journal insights.

Trike Sim Dashboard AUG 2025 - OCT 2025
Independent Developer
Vue 3, Nuxt.js, TypeScript, Pinia

- Implemented a **modular simulation dashboard** using Vue 3 and Pinia to enable frame-by-frame analysis of high-frequency transport data for the **National Commission on Transport Studies**.
- Designed **reactive state management** to support real-time parameter tuning and dynamic event logging for fleet optimization.

Fred (Hackathon Winner) JUN 2025 - JUL 2025
Frontend Developer, AI Engineer, Co-Founder
React, Next.js, TypeScript, JavaScript, OpenAI, Vapi, Supabase

- Developed and pitched a functional AI prototype within a **48-hour sprint**, winning 3rd at "0 to 1" Hackathon of **Stanford-affiliated ASES Manila**
- Architected a real-time **voice-to-insight pipeline** integrating Vapi and OpenAI to automate productivity pattern detection and tracking.
- Achieved early adoption with **50+ users**.

EXPERIENCE

Tora Media JUN 2023 - JUN 2025
Full-Stack Developer, Creative Lead
React, JavaScript, HTML, CSS, Adobe Suite, Figma

- Rebuilt lightweight frontend systems powering **2,000+ monthly client interactions**.
- Designed scalable content systems clients could independently manage.
- Directed creative production for digital assets, generating **1.5M+ views**.

TechnologyAdvice OCT 2022 - JAN 2024
Research Associate
JavaScript, HTML, CSS, SEO

- Designed and optimized **reusable frontend components** for high-traffic pages.
- Conducted **competitive SEO research**, boosting client rankings and site engagement for clients.

Presidential Communications Office APR 2021 - APR 2022
Web Deployment & Multimedia Coordinator
JavaScript, HTML, CSS, Adobe Suite

- Coordinated and deployed official government websites, reaching **12M+ page views**.
- Led a five-man team in producing official multimedia content for nationwide engagement.
